## Window of Opportunity – Early '08

via Ann McGill – 01/13/08

**NOW! is the Time ... beginning early January through the end of May ...** to make great strides and huge leaps forward in whatever areas are ready to evolve and unfold.

Take advantage of this opportunity and you will be supported by an **uplifting surge of positive energy that makes it easier to accomplish** whatever you choose.

Wait too long and this **window of opportunity** will longer exist. To learn more, read the original introductory message at:

Some useful questions you might ask yourself at this time include:

- ♥ What do I really, really want?
- ♥ Am I reaching out for the assistance that would make things easier?
- ♥ Am I turning inward to ask my ever wise Inner Self or Holy Spirit for support and guidance?

May you be blessed with powerful breakthroughs and unstoppable progress as just rewards for paying attention and following through.

**n/ Joy ... b/ Peace ... w/ Love ...**
