MIRACLES AS EVERYDAY EVENTS Proving What's Possible

Reston, Virginia – March 23, 2008 & 2013.

Miracles Made Easy: Claim Your Power, Create Desired Results – the title says it all. This book makes big claims and backs them up. Ann McGill, the author, describes it as “a door opener for those who don’t yet realize that miracle-making is an ability everyone has.” What makes this book so powerful is that Ms. McGill doesn’t ask you to take her word for it. She suggests a dozen different experiments to try so you can prove to yourself that you, too, can make miraculous events happen with ever greater ease.

Filled with attention-getting teaching tales, Ms. McGill’s clear writing style makes it easy to understand, and remember, the principles she puts forth. It’s range of useful ideas and information makes *Miracles Made Easy* the kind of book you want to talk about with friends. Families looking for fun things adults and children of all ages can do together will be especially pleased.

For over twenty-five years, Ann McGill has served as a catalyst to rapid transformative growth and change. As a “Potentialist,” she guides the process of releasing innate potential so you can “birth into being-ness the beautiful truth of who you really are.” Visit www.MiraclesMadeEasy.com to learn more about Ann McGill and read the book.
